

Ohio Library Council
LIBRARY EDUCATION COMMITTEE ANNUAL REPORT

Unit Name: Library Education Committee

Completed by: Christopher Korenowsky

E-mail address: ckorenowsky@olc.org

The Education Committee reformatted its make-up in 2009. In an effort to work more effectively and efficiently, the Education Committee absorbed both the Library Development and Library Certification committees. The committee felt that the efforts of library development and library certification aligned themselves to the work of the Education Committee. Going forward, the work of library development and library certification will be goals and objectives within the Library Education Committee.

The Library Education Committee also participated in a webinar in December to learn about the OLC's new technology platform for online education. The Library Education Committee is committed to developing two webinars to meet the educational needs of OLC membership in 2010.
